GREAT RACE WON BY AN AMERICAN

John F. Hayes the Victor in a Thrilling Contest.

ITALIAN MAKES GALLANT FIGHT

Staggered Into the Stadium Ahead of All Other Contestants in the Marathon Race, But Is Almost Delirious and Is Unable to Cross the Finish Line Unaided.

London, July 25.—It would be no exaggeration in the minds of any of the 100,000 spectators who witnessed the finishing struggle of the Marathon race at the Olympic arena to say that it was the most thrilling athletic event that has occurred since that Marathon race in ancient Greece, where the victor fell at the goal and with a gave of triumph died.

The veteran athletes of Europe, America, Africa and Australia who have seen the greatest struggles of every sort on land and water for athletic supremacy, declared that there was nothing comparable to the great race here within their memories or in the other Olympic contests since the modern cycle of these began.

It was a spectacle the like of which none living had ever seen and none who saw it expect ever to see repeated. The race itself, with fifty-eight of the best men winnowed from the runners of four continents competing; the arena where it was finished in the presence of an enormous cosmopolitan assembly, with the queen of England, the royal representatives of several nations, and hosts of finely dressed men and women from the most fashionable circles of Europe, as well as several thousand Americans, and the dramatic and exciting denouement at the end combined to make a historic day.

It was an American day and the sentiments of Thursday, which rankled strongly in the breasts of Americans here when they came to the stadium, were forgotten, not only in the victory of John F. Hayes, the Irish-American Athletic club runner, but in the splendid record made by the other Americans who were well to the front in the line of those that finished.

Between England and America.

Since the beginning of the Olympic games the great rivalry has been between England and America, and while the minor competitions on the track and field, in which the two nations specialized, were fought out, Englishmen consoled themselves for all the American successes by the thought that in the domain of long distance running they always had been supreme and whatever prizes they failed to grasp in this the colonials would pick up.

The sequel may be told briefly. Six Americans and nine English runners started in the Marathon race. Of the first ten men to reach the coveted point, four were Americans and they are officially placed as follows:

Hayes, first; Joseph Forsshaw, Missouri Athletic club, third; A. R. Welton, Lawrence Y. M. C. A., fourth; Lewis Tewinina, the Carlisle Indian, ninth.

The second man was Hefferon of South Africa. He was the oldest among the runners, having thirty-four years to his credit, and he made a remarkable pace almost to the end of twenty-six miles of the struggle, but Hayes was the better man. Friends of Hefferon explain that he is at his best at forty miles and that the Marathon event was too short for him, but certainly he is one of the most wonderful runners in the world.

The first Englishman who crossed the line came in twelfth. He was W. T. Clark, and was not one of those counted upon to win. Duncan, the former English champion, who won the preliminary English trial, fell out at the twelfth mile and like several other contestants, was taken into a motor car and brought to the stadium.

Triumph for North America.

It is considered generally that the race is not only a triumph for the United States, but in a larger sense, for America, because seven of the leaders at the end were from North America. The three Canadians, Wood (the Indian), Simpson and Lawson, finished fifth, sixth and seventh, respectively, and, with the representatives of the United States, deprived England of its claim to leadership in the long distance running branch of athletics.

It will not snatch any laurels from the brow of Hayes, who won a good race, to say that the hero of the day was the Italian, Dorando. The admiration and sympathy of every person in the stadium went out to the gallant Italian, who, although he did not win, deserved to win and did more

within the limit of his powers than any other man who ran.

The crisis in a battle on which the life of a nation hung could hardly have been more impressive than Dorando's entrance into the stadium. Ten minutes before the megaphone announced "the runners are in sight," guns proclaimed the arrival of the leaders at the nearest station of the course and an intense silence overhung the stadium, while the thousands awaited breathlessly the approach of the first man.

For ten minutes all eyes were focused on the gate, almost directly opposite the royal stand, where the contestants were to enter. Finally after what seemed to be an intolerable suspense a runner staggered down the incline leading to the track. He was clothed in a white shirt and red knee pants. He stood for a moment as though dazed and then turned to the left, although a red cord had been drawn about the track in the opposite direction for the runners to follow. It was evident also to everyone that the man was practically delirious. A squad of officials ran out and expostulated with him, but apparently he was afraid that they were trying to deceive him and fought to go on to the left. At length he turned about and started on the right path along the track. Then followed an exhibition never to be forgotten by any one who witnessed it.

The colors and the number told the spectators that it was Dorando and his name was on every lip. He staggered along the cinder path like a man in a dream, his gait being neither a walk nor a run, but simply a flounder, with arms shaking and legs tottering. By devious ways he went on. Dorando staggered on toward the turn and dropped to the ground. Immediately a crowd of track officials and followers swarmed around him. It was evident that the man, with undaunted courage, had run himself to the very limit of endurance. None expected to see him rise, for, haggard and drawn, he had fallen like a good soldier when the last degree of vitality was exhausted.

Collapsed Four Times.

According to the rules of the race, physicians should have taken him away, but the track officials, lost in their sympathy for such a man and for such an effort, lifted him to his feet and with their hands at his back gave him support. Four times Dorando fell in the 300 yards that separated him from the finish and three times after the doctors had poured stimulants down his throat he was dragged to his feet and finally was pushed across the line with one man at his back and another holding him by the arm.

His part in the race, for all practical purposes, was ended when he entered the stadium, for unless he received assistance he could not have finished. While this pathetic scene was being enacted the American, Hayes, entered the stadium comparatively fresh and trotted around. He came in less than a minute behind Dorando, but in the excitement of the moment failed to get, even from his own countrymen, the reception he deserved.

The other events in the stadium were tame as compared with the Marathon race, although they added to the victories of the Americans. In the pole vault, A. C. Gilbert of Yale and E. T. Cooke of Cornell tied for first place with 12 feet, 2 inches, and the gold and silver medals go to America, while C. S. Jacobs, University of Chicago, tied with Soderstrom of Sweden and Archibald of Canada for third, with a vault of 11 feet 9 inches.

America also captured the heats in the 110-meter hurdle race, insuring all the places in the final of that event.

Nineteenth Bomb Explosion.

Chicago, July 25.—The nineteenth in a series of bomb explosions, credited to a war between factions of gamblers in Chicago, startled guests of the National hotel, 28 Van Buren street. No one was injured. The bomb was exploded on the roof of the six-story building, tearing a large hole in the roof and shattering a skylight. D. A. Dooler, proprietor of the hotel, could state no reason as to why he was selected as a victim.

Annual Army Shooting Contest.

Chicago, July 25.—Sergeant William C. Cox of the Twenty-seventh Infantry, Company H, made the highest score in the slow firing contest at 200, 300, 500 and 600 yards in the annual army shooting competition, which opened at Fort Sheridan. His score was 177 out of a possible 200. One hundred and seventy-three officers and privates took part in the preliminaries.

MEXICAN TROOPS ENGAGE INDIANS

Nineteen of the Latter Killed During the Battle.

TWO OF THE SOLDIERS SLAIN

Five Others Wounded as Result of an Attempt to Return the Indians to Their Reservation—Chief and His Son Among the Savages Who Met Death in the Encounter.

Tucson, Ariz., July 25.—In a desperate battle between Mexican troops and Papago Indians at the Imaculada ranch, near Cetro, Colo., a mining camp in the Altar district of Sonora, nineteen Indians and two soldiers were killed and five soldiers were wounded. The encounter resulted from an attempt to return the Indians to their reservation. The Papagos are usually peaceful, but many complaints of depredations upon ranches by this band caused the government on two previous occasions to send troops to subdue them. The Indians fled to the mountains both times.

The present expedition, under Captain Baron, with sixty soldiers, surprised an Indian village. The soldiers found no one in camp but two boys, as the remainder of the population were gathering cactus fruit in the hills. The soldiers set fire to the houses and the Indians rushed to the rescue of their homes.

Seeing the troops, they took refuge behind nearby rocks and opened fire. Baron ordered the bugler to sound the retreat. The troops retired and the Indians pursued, thinking they had routed the soldiers. The latter, however, soon halted and opened fire, killing nineteen of the hostiles and wounding many. The Indians fled, taking their wounded with them. Among the killed are Chief Dolores and his son. These two are said to have been the chief trouble makers. The wounded soldiers were taken to Hermosillo.

The scene of the encounter is near the international line about eighty miles from Santa Ana station on the Sonora railroad. This is the first encounter between the Papagos and troops.

FROM LINCOLN TO CHICAGO

Bryan's Progress Marked by a Number of Demonstrations.

Creston, Ia., July 25.—The progress of William J. Bryan from Lincoln to Chicago has been marked by a number of demonstrations in his honor. Omaha, Neb., Pacific Junction, Glenwood, Malvern, Hastings, Red Oak, Villisca, Corning and Creston, Ia., turned out large crowds who cheered for "our next president." Mr. Bryan, so far as he could do so, during the limited time of the stops, shook hands with all in reach. At Red Oak a man in the crowd shouted "Hurrah for Bill." Mr. Bryan set the crowd laughing when he responded that "Hurrahing for Bill is a very non-partisan yell this year." He made a few remarks in which he said that until he was officially notified of his nomination he could not make any political speeches, but that after Aug. 12 he would "commence to talk."

At Corning apparently the whole population was out. Just as the Democratic nominee began to speak, the train pulled out.

FOUR PERSONS ARRESTED

Supposed to Be Members of Gang That Terrorized Boston.

Boston, July 25.—In the search for survivors of the gang of desperadoes who on Tuesday night killed a man in a saloon and later killed a watchman at Forest Hill cemetery and wounded several persons, the police of Roxbury and Haverhill arrested four men. One, an Italian, had demanded food of a Karnwood road woman under a threat that he would shoot her. She ran into the house and the man was arrested. In his pocket was a card reading:

"Bruno Genero is a member of the Haverhill (Mass.) anarchist society."

Two men carrying revolvers, and with their pockets filled with cartridges, were arrested in the Needham woods. A fourth prisoner is booked as A. Wells, seventeen years of age, of New York.

Minnesota Bankers Meet.

Duluth, July 25.—Utilization of sound credits in the form of commercial paper by the banks, and free issuance of notes against it, properly safeguarded by reserves of gold, is the preventative against tight money urged by James T. Talbert, vice president of the Commercial National bank of Chicago, in an address before the Minnesota bankers at their state convention here.

SENSATIONS IN THE GOULD CASE

Hearing in Alleged Conspiracy Trial Is Interesting.

WITNESS MAKES CONFESSION

But Prosecution Believes Its Case Is Strong Enough at Present Without Using It—Damaging Testimony Is Given Against Defendants—Millionaire Gould in Court.

New York, July 25.—With Frank Jay Gould, the millionaire, in court, the hearing of the alleged conspiracy to manufacture divorce evidence against him was begun. He has been subpoenaed by the lawyers for the three prisoners in the case, Mrs. Ben Teal, Miss Fleming and Detective Mousley, and for nearly four hours he sat behind his counsel listening to the remarkable testimony that was given.

There were three sensational developments in the case. The first came when Lawler Carpol, who appears for Miss J. Fleming, announced that his client had made a confession. The second came when the lawyers for the defense stated that they intended to show that Miss Mabel MacCauslan, the milliner's apprentice, who accuses the prisoners of having bartered with her to sign an affidavit against Mr. Gould, had gone to Mrs. Ben Teal with a story that she had evidence against Mr. Gould which she wanted to sell to Mrs. Gould's lawyer and she thought Mrs. Gould could tell her who to go to. The other sensation was the announcement that Miss Fleming, who is still a prisoner in the Tombs, is to be married today.

Mrs. Ben Teal, wife of one of the most prominent theatrical managers in America and the principal figure in the case, was accompanied to court by her husband and two women friends. She was stunningly gowned and

Tried to Bear Up Bravely

while Miss MacCauslan told her story of the alleged conspiracy. But by the time the hearing was adjourned for the day she was on the verge of collapse. At the opening of the hearing Assistant District Attorney Hart informed the court of Miss Fleming's confession. He said that he had also obtained a statement from Miss B. Hall, a young woman who will later figure in the case, corroborating Miss MacCauslan's affidavit. He said that the statements of Miss Fleming and Miss Hall would not be used at the present hearing, as he considers that he has enough evidence to warrant the holding of the prisoners for trial.

After counsel for the defendants had tried to have their case dismissed and had failed, Miss MacCauslan was put on the stand. She said she had first been called to Mrs. Teal's apartments on a matter of business on July 13, but that the Gould case was not discussed until her next visit on July 16, when she met Miss Julia Fleming. It was on this occasion, she claimed, that Mrs. Teal asked her if she needed any money and when she said she did, the witness stated that the alleged plot to manufacture evidence against Gould was unfolded to her. The witness swore that she was to

get \$600 for signing the affidavit. Then as a climax to the girl's testimony, the prosecutor asked her whether all that was in the affidavit was true or false and she dramatically exclaimed, "false."

CUMMINGS AGAIN CHOSEN

Re-Elected President of the Ancient Order of Hibernians.

Indianapolis, July 25.—Mathew Cummings of Boston was re-elected president of the Ancient Order of Hibernians over J. E. Dolan of New York at the national convention of the organization by a vote of 275 to 183.

James J. Regan of St. Paul was elected vice president; John T. McGinnis of Scranton, Pa., secretary, and John F. Quinn of Joliet, Ill., treasurer.

A resolution was passed in favor of using every influence, moral and financial, in the interest of church extension. It is planned to open the treasury of the national organization for the benefit of those Catholic churches that are weak financially and to aid them in every other material way.

Negro Stabbed to Death.

St. Paul, July 25.—Stabbed during a row in the house at 145 East Ninth street, Joe Hanley, a colored waiter at the Minnesota club, was carried out and laid beside a wood pile in the rear of the place and left to die. He was found and taken to Bethesda hospital, where he died a few hours later. The police arrested Ida Dodson, colored, who lives at the house, and they are looking for William Hanley, Joe's brother, who it is said, was one of those who laid the dying man beside the wood pile.

Mattich Given Twenty Years.

Duluth, July 25.—Eli Mattich must spend twenty years in prison for the killing of Rodi Donjonovich on April 20. Sentence was passed on him by Judge Ensign. Mattich was convicted of manslaughter in the first degree at his trial recently. He and Donjonovich quarrelled at the Croxton mine location and the result was a tragedy.

Danish and Swedish Alliance.

Copenhagen, July 25.—It is reported that the Danish and Swedish governments have agreed upon an offensive and defensive military alliance.

Bank Clerk Drowned.

St. Paul, July 25.—John Carlson, a clerk in the Scandinavian-American bank, living at Mississippi and Cook streets, was drowned in Lake McCarron while bathing with two friends. He was wading when his friends left him, and they were swimming, and when they returned from a spurt he had disappeared. He was twenty-two years of age and his parents live in Cambridge, Minn.

He was found and taken to Bethesda hospital, where he died a few hours later. The police arrested Ida Dodson, colored, who lives at the house, and they are looking for William Hanley, Joe's brother, who it is said, was one of those who laid the dying man beside the wood pile.

Mattich Given Twenty Years.

Duluth, July 25.—Eli Mattich must spend twenty years in prison for the killing of Rodi Donjonovich on April 20. Sentence was passed on him by Judge Ensign. Mattich was convicted of manslaughter in the first degree at his trial recently. He and Donjonovich quarrelled at the Croxton mine location and the result was a tragedy.

Danish and Swedish Alliance.

Copenhagen, July 25.—It is reported that the Danish and Swedish governments have agreed upon an offensive and defensive military alliance.

Bank Clerk Drowned.

St. Paul, July 25.—John Carlson, a clerk in the Scandinavian-American bank, living at Mississippi and Cook streets, was drowned in Lake McCarron while bathing with two friends. He was wading when his friends left him, and they were swimming, and when they returned from a spurt he had disappeared. He was twenty-two years of age and his parents live in Cambridge, Minn.

The Real Baseball.
Oh, take me away from the baseball game
Where science is at the bat
And the players play
In a technical way
Till a Rube can't tell what they're at;
Where scores are highest when nothing at all
And nobody makes a base;
Where nobody makes
Any sort of mistakes
And everything's just in place;
Where spectators keep on the watch for plays
So close that it gives them a pain,
And, whatever's done
In hit, catch or run,
They scream at to take off the strain.

Oh, carry me back to the old fashioned game
That doesn't know science at all;
Where the slides go in
With a whoop to win
And they don't do a thing but play ball;

Where twenty or thirty or forty runs
Are likely as not to be made
And the bags are hot
From many a swat
In games that are played as is played;

Where the catcher don't look like an armored knight
And the pitcher is not so intense
The batter cut it hit
'Em a little bit,
But bangs 'em clean over the fence;

Where something is doing that stirs up the soul
About every minute or so,
With the home runs made
And double plays played
And the whole darn thing on the go;

Where grand stand and bleachers are all of a kind
And are there because they are there
To see a good game
That's good just the same,
Though science be up in the air.

Oh, take me away from the baseball game
Where scientists have the call
And give me the play
That lasts half a day!
Hurrah! That is ball! That is ball!
—W. J. Lampton in New York Times.

CUT THE WEEDS IS THE WORD

Weeds are Fast Ripening and
They Should be Cut at
Once

CUT THOSE ON YOUR PREMISES

This is not a Municipal Affair
so Much as Property
Owners' Duty

"It is a shame that Brainerd is allowed to go to seed in the way it is" is the way one interested citizen expressed himself regarding the weeds. Continuing he said: "The lawns of the city are well kept, for the most part, but these same citizens who pride themselves so much on their own lawns are very indifferent about the vacant lot that they own adjoining another man's lawn. No, I am not striking at someone for personal reasons, as my neighbors are 'desirable citizens' but the injustice of the thing has often occurred to me. There are many vacant lots throughout the city that are naught but weed patches and the shame of it is that they adjoin or are very near to well kept lawns. Then the streets are full of weeds which are seldom cut, and if they are, it is after they have gone to seed."

The weed problem is one that is, as yet, an unsolved one. Last year the residents of some streets took up a collection among themselves and hired the work done. This was not generally observed and the weeds went to seed on the large majority of the streets. Perhaps the council can present a resolution.

In some cities where the lot owners do not keep them mown the city does the work and it is added to the taxes. This is certainly a matter for the consideration of all interested in a Beautiful Brainerd—and that right early.

WORLD'S LARGEST PRISON.

Model Building With Enamelled Steel Cells to Replace Sing Sing.

Sing Sing, New York state's famous penitentiary, will soon be among the historic prisons of the past. It is to be replaced by perhaps the best prison in the world.

Plans for the new structure have already been approved, and the state has purchased a tract of 500 acres for \$75,000 on the border line between Orange and Rockland counties, just halfway between Fort Montgomery and Iona Island, on the west bank of the Hudson river. The prison will cost \$2,000,000.

Aside from the magnitude of the work and the amount of money it will cost, there are several things of special interest about the proposed new prison. It will be the largest in the world, covering about thirty acres, which is three times the area of most of the large prisons in existence. The cell house, which is to house 2,000 human beings, will have 1,408 single cells. It will be surrounded by large air spaces, and the height of the building will be restricted to four tiers instead of eight or ten tiers, which is the custom. The prison will have a ventilation system that will change the air in each cell six times every hour.

A novelty to be introduced is the use of enamelled steel in the cells. The interior of all walls will be of porcelain enamel, the same as bathtubs. This will be the first prison in which the wholesale use of enamelled steel has been tried. Up to this time cells have been variously constructed of concrete, brick, stone and kindred materials.

Each cell will contain a water closet, brick basin, running water, one bunk for a prisoner and a steel case for papers. The dimensions of the cells will be 6 by 10 on the floor and 8 feet 6 inches in height. The cells will first be locked by the keeper, then interlocked by the supervising officer and again interlocked from the warden's office.

BAN ON WOMAN'S WILES.

Georgia Representative Explains His Sensational Bill to Protect Men.

Representative George Glenn of Whitfield county, Ga., who is backing the measure before the Georgia legislature "to protect men from the wiles and blandishments of women," says what he saw recently of the arts of women at a summer resort and what he sees daily of their wiles in dress on the streets of Atlanta convinces him his bill ought to pass.

"I am a married man myself," said Colonel Glenn, "but when I was sweet-hearting there were no such tricks in feminine apparel as at present. With peekaboo waists, openworked stockings, sheath gowns and other such things in use by women, what show has a man to keep his head?"

"These devices are utterly unfair to the men. Too often the man learns when married that he was caught by devices of apparel and that the real woman is nothing like what she appeared to be at the summer resort or on the city streets. My bill seeks only to penalize the woman who has tricked

a man into matrimony by such devices that make her appear what she is not and that inflame his imagination. Peekaboo waists and V shaped corsets are especially iniquitous. They have caught many a man. Rainbow stockings have also hurried many a man into matrimony. The man gets just a glimpse of the rainbow stockings, and he chases them as ardently as the little boy who sought the end of the rainbow, believing he would find a pot of gold. No real woman ought to object to the bill. The measure intends that she shall be sought on her merits. If she cannot get a husband without enticing stockings, open waists, pads, paints and such, she ought not to have one. The bill puts the real woman in evidence."

Monument to Young Hero.

A monument to Midshipman James Thomas Cruse has recently been erected in the National cemetery at Arlington, and on it are inscribed these words by himself while suffering from mortal injuries: "Never mind me. I'm all right. Look after those other fellows."

Young Cruse, who was a Kentuckian, unflinchingly met death last summer from injuries received in an explosion in a turret of the battleship Georgia while at target practice in Cape Cod bay. He was rendering all the assistance he could to the injured seamen when some one reminded him of his own serious condition. Then it was that he uttered the words inscribed on his monument.

Emotional Politics.

The Republican national convention yelled for Roosevelt for forty-five minutes, and the Democratic national convention yelled for Bryan for an hour and a half. The woman suffragists are now saying that if the clubwomen or the D. A. R. or any other body of women had behaved in that way over the election of their president it would have been pointed at on all sides as proof that women were too emotional to be trusted with the ballot.

Most of us think our duty done if, when stillness is enjoined, we sit quietly in a chair. Yet finger tips, mouth or foot may be moving restlessly all the time, depriving us of the full benefit of rest. Quietness should be applied to everything we do. To prove its necessity watch yourself for a day and see how many needless movements you make. Perhaps you are at a desk, and as you write you draw your eyes toward your nose. This habit tenses all the muscles around our eyes, draws up those near the nose and as far down as the chin. Besides being unattractive it is a sure beauty destroyer, making one cross looking. Equally bad is it to drum with the fingers, lock and unlock them, rub the hands round and round or keep them ever in motion. Yet how often does one see hands that are kept perfectly still in the lap?—St. Louis Post-Dispatch.

Do You Think For Yourself?

Or, do you open your mouth like a young bird and gulp down whatever food or medicine may be offered you?

There are an intelligent thinking woman, in need of relief from weakness, nervousness, pain and suffering, then it means much to you that there is one tried and true honest medicine of known composition, sold by druggists for the cure of woman's ills.

The makers of Dr. Pierce's Favorite Prescription, for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible endorsement of the leading and standard authorities of the several schools of practice, are perfectly willing, and in fact, are only too glad to print, as they do, the formula, or list of ingredients, of which it is composed, in plain English, on every bottle-wrapper.

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, narcotics, harmful, or habit-forming drugs, and no agent enters into it that is not highly recommended by the most advanced and leading medical teachers and authorities of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-famed medicine is advised.

No other medicine for woman's ills has any such professional endorsement as Dr. Pierce's Favorite Prescription has received, in the unqualified recommendation of each of its several ingredients by scores of leading medical men of all the schools of practice. Is such an endorsement not worthy of your consideration?

A booklet of ingredients, with numerous authoritative professional endorsements by the leading medical authorities of this country, will be mailed free to any one sending name and address with request for same. Address Dr. R. V. Pierce, Buffalo, N. Y.

One of the largest deeds placed on
record for some time is now in the of-
fice of the register of deeds for record.
It is from Thomas Sime, of St. Paul,
for land in 136-27, to the amount of
1,300 acres. The consideration is \$20,-
000, in hand paid.

Mrs. M. Moss and daughter Mabel,
of Toronto, were in the city yesterday,
guests of Mrs. E. J. Palmer, of 1504
8th street northeast. Mrs. Moss is a
cousin of Mrs. Palmer and the day was
pleasantly spent seeing the sights in
Brainerd and vicinity.

The Real Baseball.

Oh, take me away from the baseball
game

Where science is at the bat

And the players play

In a technical way

Till a Rube can't tell what they're at;

Where scores are highest when nothing
is at all

And nobody makes a base;

Where nobody makes

Any sort of mistakes

And everything's just in place;

Where spectators keep on the watch for
plays

So close that it gives them a pain,

And, whatever's done

In hit, catch or run,

They scream at to take off the strain.

Oh, carry me back to the old fashioned
game

That doesn't know science at all;

Where the sides go in

With a whoop to win

And they don't do a thing but play ball;

Where twenty or thirty or forty runs
Are likely as not to be made

And the bags are hot

From many a swat

In games that are played as is played;

Where the catcher don't look like an ar-
mored knight

And the pitcher is not so intense

The batter can't hit

'Em a little bit,

But bangs 'em clean over the fence;

Where something is doing that stirs up
the soul

About every minute or so,

With the home runs made

And double plays played

CUT THE WEEDS IS THE WORD

Weeds are Fast Ripening and
They Could be Cut at
Once

CUT THOSE ON YOUR PREMISES

This is not a Municipal Affair
so Much as Property
Owners' Duty

"It is a shame that Brainerd is al-
lowed to go to seed in the way it is"
is the way one interested citizen ex-
pressed himself regarding the weeds.
Continuing he said: "The lawns of
the city are well kept, for the most
part, but these same citizens who pride
themselves so much on their own lawns
are very indifferent about the vacant
lot that they own adjoining another
man's lawn. No, I am not striking at
someone for personal reasons, as my
neighbors are 'desirable citizens' but
the injustice of the thing has often oc-
curred to me. There are many vacant
lots throughout the city that are naught
but weed patches and the shame of it
is that they adjoin or are very near to
well kept lawns. Then the streets are
full of weeds which are seldom cut,
and if they are, it is after they have
gone to seed."

The weed problem is one that is, as
yet, an unsolved one. Last year the
residents of some streets took up a
collection among themselves and hired
the work done. This was not gener-
ally observed and the weeds went to
seed on the large majority of the
streets. Perhaps the council can pre-
sent a resolution.

In some cities where the lot owners
do not keep them mown the city does
the work and it is added to the taxes.
This is certainly a matter for the con-
sideration of all interested in a Beau-
tiful Brainerd—and that right early.

WORLD'S LARGEST PRISON.

Model Building With Enamelled Steel
Cells to Replace Sing Sing.

Sing Sing, New York state's famous
penitentiary, will soon be among the
historic prisons of the past. It is to
be replaced by perhaps the best prison
in the world.

Plans for the new structure have al-
ready been approved, and the state
has purchased a tract of 500 acres for
\$75,000 on the border line between
Orange and Rockland counties, just
halfway between Port Montgomery and
Iona Island, on the west bank of
the Hudson river. The prison will
cost \$2,000,000.

Aside from the magnitude of the
work and the amount of money it will
cost, there are several things of special
interest about the proposed new prison.
It will be the largest in the world, cov-
ering about thirty acres, which is three
times the area of most of the large
prisons in existence. The cell house,
which is to house 2,000 human beings,
will have 1,408 single cells. It will be
surrounded by large air spaces, and
the height of the building will be re-
stricted to four tiers instead of eight
or ten tiers, which is the custom. The
prison will have a ventilation system
that will change the air in each cell
six times every hour.

A novelty to be introduced is the use
of enamelled steel in the cells. The in-
terior of all walls will be of porcelain
enamel, the same as bathtubs. This
will be the first prison in which the
wholesale use of enamelled steel has
been tried. Up to this time cells have
been variously constructed of concrete,
brick, stone and kindred materials.

Each cell will contain a water closet,
wash basin, running water, one bunk
for a prisoner and a steel case for
papers. The dimensions of the cells
will be 6 by 10 on the floor and 8 feet
6 inches in height. The cells will first
be locked by the keeper, then inter-
locked by the supervising officer and
again interlocked by the warden's
office.

There will not be a piece of wood as
large as your hand in the cell house,
where the prisoners are to be locked
up nights and holidays. All the furni-
ture will be of steel. The only indam-
nable articles will be the mattresses
on which the prisoners sleep and the
blankets used for coverings.

BAN ON WOMAN'S WILES.

Georgia Representative Explains His
Sensational Bill to Protect Men.

Representative George Glenn of
Whitfield county, Ga., who is backing
the measure before the Georgia legis-
lature "to protect men from the wiles
and blandishments of women," says
what he saw recently of the arts of
women at a summer resort and what
he sees daily of their wiles in dress on
the streets of Atlanta convinces him
his bill ought to pass.

"I am a married man myself," said
Colonel Glenn, "but when I was sweet-
hearting there were no such tricks in
feminine apparel as at present. With
peekaboo waists, openworked stock-
ings, sheath gowns and other such
things in use by women, what show
has a man to keep his head?"

"These devices are utterly unfair to
the men. Too often the man learns
when married that he was caught by
devices of apparel and that the real
woman is nothing like what she ap-
peared to be at the summer resort or
on the city streets. My bill seeks only
to penalize the woman who has tricked

The Sheet Anchor.
"That was my sheet anchor"—i. e.,
my best hope, my last refuge—the sheet
anchor of a ship, which in stress of
weather is the sailors' chief depend-
ence. The word sheet is a corruption
of the word shote (thrown out), mean-
ing the anchor "thrown out" in foul
weather. The Greeks and Romans
said, "My sacred anchor," referring to
the sheet anchor, which was always
dedicated to some god.

Do You Think For Yourself?

Or, do you open your mouth like a young
bird and gulp down whatever food or medi-
cine may be offered you?

There are intelligent thinking women,
in need of relief from weakness, nervousness,
pains and aches, then it means much to
you that there is one tried and true honest
medicine or known composition sold by
druggists for the cure of woman's ills.

The makers of Dr. Pierce's Favorite Pre-
scription, for the cure of weak, nervous, run-
down, over-worked, debilitated, pain-racked
women, knowing this medicine to be made up
of ingredients, every one of which has the
strongest possible endorsement of the leading
and standard authorities of the several
schools of practice, are perfectly willing, and
in fact, are only too glad to print, as they do,
the formula, or list of ingredients, of which
it is composed, in plain English, on every
bottle-wrapper.

The formula of Dr. Pierce's Favorite Pre-
scription will bear the most critical examina-
tion of medical experts, for it contains no
alcohol, narcotics, harmful, or habit-forming
drugs, and no agent enters into it that is not
highly recommended by the most advanced
and leading medical teachers and authori-
ties of their several schools of practice.
These authorities recommend the ingredients
of Dr. Pierce's Favorite Prescription for the
cure of exactly the same ailments for which
this world-famed medicine is advised.

No other medicine for woman's ills has any
such professional endorsement as Dr. Pierce's
Favorite Prescription has received, in the un-
qualified recommendation of each of its
several ingredients by scores of leading medi-
cal men of all the schools of practice. Is
such an endorsement not worthy of your
consideration?

A booklet of ingredients, with numerous
authoritative professional endorsements by the
leading medical authorities of this country,
will be mailed free to any one sending name
and address with request for same. Address

NORTH STAR JRS. ARE CHAMPIONS

Won Two Straight Games From
Northern Pacific Clerks
in Finals

SCORE LAST NIGHT 3 to 0

Juniors Have Game on Mill Grounds
Sunday Afternoon with
Aitkin

Friday night closed the season for the city base ball league. The Northern Pacific clerks played a much better game than they did the night previous, and held the Stars down to three scores, but were unable to get a man around the diamond, although they got one or two to third base. When he got in a corner Alderman was there with the goods and it was "one, two three, out." The game was free from wrangling or jangling and was cleanly played, but one accident marring it. Tom Templeton, who was playing with the Northern Pacific clerks, was running to second and spiked George Erickson, the lightest man on the opposing team splitting his finger nail and cutting the hand and bruising his shoulder badly. The North Star Juniors, are the acknowledged champions of the city, either inside or outside the league, as they have lost but three games the entire season. They have played twelve games in the league and several outside. The following is the standing of the teams of the league.

Struck out by Alderman 7, by Curry 5. Hits off Alderman 1, off Curry 2. Bases on balls by Alderman 2, by Curry 0. Umpires Sundberg and Lagerquist. Scorer, Fall. Time of game 55 minutes.

Score by innings.

Sunday afternoon the North Star Juniors will play Aitkin on the grounds at the cedar yard near the old Brainerd mill site in this city. The teams will be evenly matched and a first class game anticipated. All lovers of base ball should attend and help the boys to another victory by their presence.

The Southside team wishes THE DISPATCH to announce that they challenge the North Star Juniors to a game. There is little doubt that they will be accommodated.

Best the World Affords

"It gives me unbounded pleasure to recommend Bucklen's Arnica Salve," says J. W. Jenkins, of Chapel Hill, N. C. "I am convinced it's the best salve the world affords. It cured a felon on my thumb, and it never fails to heal every sore, burn or wound to which it is applied. 25c. at H. P. Dunn's drug store."

HAVE LEASED STORE

Bye & Peterson Have Leased the Cale
Storeroom Formerly Occupied
by Model Clothing Company

Ole Peterson states this afternoon that he and John Bye have leased the corner store room in the Cale block, the lease to commence September 1st. The lease was signed up yesterday and the boys will at once commence to purchase their stock and get in readiness for opening in the clothing business at that time. The firm name will be Bye & Peterson. The young gentlemen are both well known and well liked in the community and will do a good business.

The Remedy That Does

"Dr. King's New Discovery is the remedy that does the healing others promise but fail to perform," says Mrs. E. R. Pierson, of Auburn Centre, Pa. "It is curing me of throat and lung trouble of long standing, that other treatments relieved only temporarily. New Discovery is doing me so much good that I feel confident its continued use for reasonable length of time will restore me to perfect health." This renowned cough and cold remedy and throat and lung healer is sold at H. P. Dunn's drug store. 50c. and \$1.00. Trial bottle free.

MARRIAGE LICENSES

There were six marriage licenses issued the past week as follows:

C. W. Cunningham and Grace Pearl Green.

Effie M. White and Ray Milton Mills.

Carl Nelson and Bertha Nesheim.

Fred Ridlow and Vivian Clark.

Richard Henry Ebinger and Meleta Gertrude Hegland.

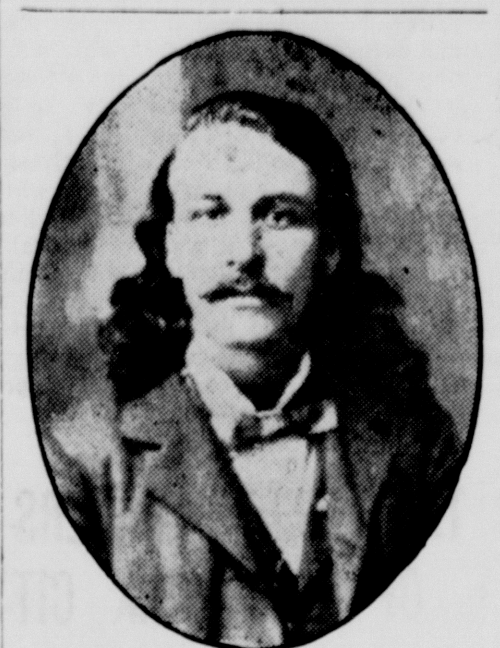

It Can't Be Beat

The best of all teachers is experience. C. M. Harden, of Silver City, North Carolina, says: "I find Electric Bitters does all that's claimed for it. For stomach, liver and kidney troubles it can't be beat. I have tried it and find it a most excellent medicine." Mr. Harden is right; it's the best of all medicines also for weakness, lame back, and all run down conditions. Best too for chills and malaria. Sold under guarantee at H. P. Dunn's drug store, 50c.

BETTER THAN SPANKING

Spanking does not cure children of bad wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, South Bend, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

Postage Pensioners Receive Penalty
Envelope With Next
Checks

When the old soldiers, widows and others who receive pensions from the government receive their checks in return for the sending of the papers to the pension office at Washington, they will find enclosed what is termed a penalty envelope, an envelope that can be used only for the purpose sent for, else a fine of \$300 is imposed by the government, says an exchange.

These envelopes are sent to the old soldiers and others for the purpose of sending their papers to the pension office in October, and should not be thrown away when the checks arrive. The rule of sending the postage to pensioners will effect the postoffice department to the extent of \$800,000 annually.

Delicious Banana Cream

This recipe is highly recommended by one of our correspondents. Try it for dessert tomorrow. Peel five large bananas, rub smooth with five teaspoonsful of sugar. Add one teaspoon sweet cream beater to stiff froth, then add one lb. package of Lemon JELL-O dissolved in 1 1/2 cups boiling water. Pour into mold and when cold garnish with candied cherries. Served with whipped cream, or any good pudding sauce. JELL-O is sold by all Grocers at 10c a package.

Green-Cunningham

A pretty wedding took place Friday afternoon at 4 o'clock at the home of Miss Vivie Green, 408 So. 6th St., at which time Mr. Charles William Cunningham and Miss Grace Pearl Green were united in marriage by Rev. J. F. McLeod. The ceremony was performed in the presence of a few friends of the contracting parties.

Both young people are well known here having been reared in this vicinity of Brainerd and have many friends who will unite with THE DISPATCH in extending congratulations.

The happy couple left for Duluth and the Great Lakes expecting to return in a few days when they will make their home in this city.

Nesheim-Nelson

Mr. Carl Nelson and Miss Bertha J. Nesheim, both of Long Lake, were united in matrimony by Rev. J. F. McLeod at the Presbyterian Manse Saturday afternoon at 1:30. The ceremony was witnessed only by a few intimate friends of the contracting parties. The happy couple will make their home at South Long Lake. Both have a large circle of friends in Brainerd who will wish them long life and happiness.

Moths and Fires.

Moths and flames are universally connected, yet few people suspect that danger could arise therefrom. The insects are of such frail structure that generally they get destroyed before it is possible for them to inflict injury, and it is hardly credible that the wings would ignite and retain the flame long enough to enable the moth to fly to its surroundings. That, however, has occurred. The moth was a very large one, and its wings must have been very dry, so that when it floundered through the flame it set fire to one wing and darted on to a curtain near by, which at once flared up. It is possible that many summer evening fires in the country could be attributed to a source of this kind. It is notorious that mysterious fires often arise at sunset in the hot months.—Strand Magazine.

The following gentlemen arrived on the afternoon train: L. E. Heifner, F. T. Carr, Alex Benson and W. L. Palmer, of Sauk Center, and Jas. B. Doty, R. R. Dregoo and J. P. Chance, of Royalton.

Those who came up this noon went to the grounds this afternoon to witness the shooting of Mr. Akard.

ARM, HOME AND GARDEN

Gardening for Next Year

This may seem early to commence gardening for next year, but it is not. Many a gardener, professional as well as amateur, lets the heat of summer overcome his enthusiasm and energy. Going on the theory that the vegetables have made most of their growth, he says that a few weeds now will not do any harm. As a result they are let to grow during the late summer and fall. They not only eat up the substance of the ground but seed the land with foul weeds for the next season. The writer last year followed up the weed question, not only in the garden, but around the edges, during the entire summer and fall and was careful to get manure so completely rotted that all seeds in it were killed. As a result he had less than one-fourth as many weeds this year as usual.

All ground where early radishes, onions and lettuce were raised should be cleaned thoroughly. It can be planted to kale now. This vegetable, if planted at this time will furnish greens not only late in the fall, but can be dug out from under the snow any time in the winter and used when it is most relished. Our kale patch last year was a frequent lunching ground for the cotton tails, as was proven by the many tracks in the early fall snows.

MUSIC AND DRAMA

The Little Prospector

"The flowers are welcome in May, but 'Chic' Perkins is welcome any day," for she bring along with her an atmosphere of cheerful humor, that invigorates and refreshes. As a theatrical entertainer she has few equals, her stage pictures are well nigh perfect, and her impersonations of character are so free from the semblance of art, as to destroy the idea of illusion and make them realities. In her new play "The Little Prospector," she has found a fitting medium for the expression of her dramatic powers. "The Little Prospector" is a dramatic jewel of the purest lustre, richly set in a gorgeous environment of scenic effects, and faithfully interpreted by a full company of capable artists who will present it at opera house on July 29.

A Tea Party in Darkness.

There is a tradition to the effect that when domestic lighting by gas was still a novelty Sir Walter Scott introduced it into every room and staircase of the house that he was building at Abbotsford and did so without provision for any unexpected failure. His entering into possession was made the occasion for a house warming on a scale of considerable magnitude, and in the very middle of the festivities all the lights suddenly went out. The guests were left in absolute darkness until such time as mounted messengers could return from Melrose, whither they had been dispatched with instructions to collect all the tallow candles and tin sconces or candlesticks which the village contained.—London Times.

A Fighting Snake.

There is only one snake in the far east—that is, India, Burma, Siam and the Malay peninsula—that will always and at all times attack a man on sight. That is the hamadryad, justly more feared than any other animal that crawls. Fortunately for mankind they are not common, except in limited districts. They are so feared by all that the native shikaris or hunters will go miles out of their way to avoid the locality in which they are known to exist. The hamadryad will stalk a man as a tiger stalks his prey.—Medical Journal.

Fencing With Umbrellas.

A number of English society ladies are at present endeavoring to popularize a new form of sport in London recently imported from Paris, which consists of fencing with umbrellas. The exercise is intended to render them more independent of male protection in the event of an attack by hooligans. Under the guidance of a well known teacher of fencing, certain of these ladies have already acquired amazing dexterity in the use of this novel weapon.

WEEKLY REVIEW OF TRADE

Good Crop Reports and Growth of
Confidence in Outlook Evident.

New York, July 25.—Bradstreet's weekly review of trade says good crop reports, the advance of the season and growth in confidence as to the trade outlook are reflected in reports of moderate enlargement of future buying at a few large centers, notably in the West and Southwest. Industrial lines, too, have been benefited by evidences of revival in demand and the number of idle operatives has been reduced as a whole. NORTH STAR JRS. ARE CHAMPIONS

Won Two Straight Games From
Northern Pacific Clerks
in Finals

SCORE LAST NIGHT 3 to 0

Juniors Have Game on Mill Grounds
Sunday Afternoon with
Aitkin

Friday night closed the season for the city base ball league. The Northern Pacific clerks played a much better game than they did the night previous, and held the Stars down to three scores, but were unable to get a man around the diamond, although they got one or two to third base. When he got in a corner Alderman was there with the goods and it was "one, two, three, out." The game was free from wrangling or jangling and was cleanly played, but one accident marring it. Tom Templeton, who was playing with the Northern Pacific clerks, was running to second and spiked George Erickson, the lightest man on the opposing team splitting his finger nail and cutting the hand and bruising his shoulder badly. The North Star Juniors, are the acknowledged champions of the city, either inside or outside the league, as they have lost but three games the entire season. They have played twelve games in the league and several outside. The following is the standing of the teams of the league.

Struck out by Alderman 7, by Curry 5. Hits off Alderman 1, off Curry 2. Bases on balls by Alderman 2, by Curry 0. Umpires Sundberg and Lagerquist. Scorer, Fall. Time of game 55 minutes. Score by innings.

Sunday afternoon the North Star Juniors will play Aitkin on the grounds at the cedar yard near the old Brainerd mill site in this city. The teams will be evenly matched and a first class game anticipated. All lovers of base ball should attend and help the boys to another victory by their presence.

The Southside team wishes THE DISPATCH to announce that they challenge the North Star Juniors to a game. There is little doubt that they will be accommodated.

Best the World Affords

"It gives me unbounded pleasure to recommend Bucklen's Arnica Salve," says J. W. Jenkins, of Chapel Hill, N. C. "I am convinced it's the best salve the world affords. It cured a felon on my thumb, and it never fails to heal every sore, burn or wound to which it is applied. 25c. at H. P. Dunn's drug store."

by Model Clothing Company

Ole Peterson states this afternoon that he and John Bye have leased the corner store room in the Cale block, the lease to commence September 1st. The lease was signed up yesterday and the boys will at once commence to purchase their stock and get in readiness for opening in the clothing business at that time. The firm name will be Bye & Peterson. The young gentlemen are both well known and well liked in the community and will do a good business.

The Remedy That Does

"Dr. King's New Discovery is the remedy that does the healing others promise but fail to perform," says Mrs. E. R. Pierson, of Auburn Centre, Pa. "It is curing me of throat and lung trouble of long standing, that other treatments relieved only temporarily. New Discovery is doing me so much good that I feel confident its continued use for reasonable length of time will restore me to perfect health." This renowned cough and cold remedy and throat and lung healer is sold at H. P. Dunn's drug store. 50c. and \$1.00. Trial bottle free.

MARRIAGE LICENSES

There were six marriage licenses issued the past week as follows:

James G. Murray and Clarabelle Warsaw.
C. W. Cunningham and Grace Pearl Green.
Effie M. White and Ray Milton Mills.
Carl Nelson and Bertha Neisham.
Fred Ridlow and Vivian Clark.
Richard Henry Ebinger and Meleta Gertrude Hegland.

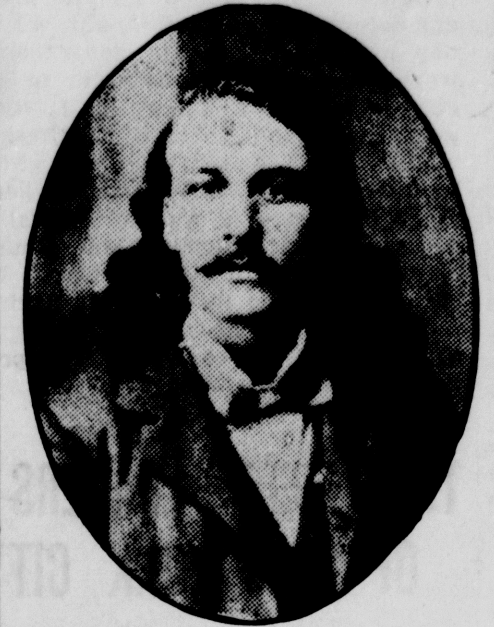

It Can't Be Beat

The best of all teachers is experience. C. M. Harden, of Silver City, North Carolina, says: "I find Electric Bitters does all that's claimed for it. For stomach, liver and kidney troubles it can't be beat. I have tried it and find it a most excellent medicine." Mr. Harden is right; it's the best of all medicines also for weakness, lame back, and all run down conditions. Best too for chills and malaria. Sold under guarantee at H. P. Dunn's drug store. 50c.

BETTER THAN SPANKING

Spanking does not cure children of bad wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, South Bend, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

Postage Pensioners Receive Penalty
Envelope With Next
Checks

When the old soldiers, widows and others who receive pensions from the government receive their checks in return for the sending of the papers to the pension office at Washington, they will find enclosed what is termed a penalty envelope, an envelope that can be used only for the purpose sent for, else a fine of \$300 is imposed by the government, says an exchange.

These envelopes are sent to the old soldiers and others for the purpose of sending their papers to the pension office in October, and should not be thrown away when the checks arrive. The rule of sending the postage to pensioners will effect the postoffice department to the extent of \$800,000 annually.

Delicious Banana Cream

This recipe is highly recommended by one of our correspondents: Try it for dessert tomorrow. Peel five large bananas, rub smooth with five teaspoonfuls of sugar. Add one teaspoon sweet cream beaten to a stiff froth, then add one 10c package of Lemon JELL-O dissolved in 1 1/2 cups boiling water. Pour into mold and when cold garnish with candied cherries. Served with whipped cream, or any good pudding sauce. JELL-O is sold by all Grocers at 10c a package.

Green-Cunningham

A pretty wedding took place Friday afternoon at 4 o'clock at the home of Miss Vivie Green, 408 So. 6th St., at which time Mr. Charles William Cunningham and Miss Grace Pearl Green were united in marriage by Rev. J. F. McLeod. The ceremony was performed in the presence of a few friends of the contracting parties.

Both young people are well known here having been reared in this vicinity of Brainerd and have many friends who will unite with THE DISPATCH in extending congratulations.

The happy couple left for Duluth and the Great Lakes expecting to return in a few days when they will make their home in this city.

Nesheim-Nelson

Mr. Carl Nelson and Miss Bertha J. Nesheim, both of Long Lake, were united in matrimony by Rev. J. F. McLeod at the Presbyterian Manse Saturday afternoon at 1:30. The ceremony was witnessed only by a few intimate friends of the contracting parties. The happy couple will make their home at South Long Lake. Both have a large circle of friends in Brainerd who will wish them long life and happiness.

Moths and Fires.

Moths and flames are universally connected, yet few people suspect that danger could arise therefrom. The insects are of such frail structure that generally they get destroyed before it is possible for them to inflict injury, and it is hardly credible that the wings would ignite and retain the flame long enough to enable the moth to fly to its surroundings. That, however, has occurred. The moth was a very large one, and its wings must have been very dry, so that when it floundered through the flame it set fire to one wing and darted on to a curtain near by, which at once flared up. It is possible that many summer evening fires in the country could be attributed to a source of this kind. It is notorious that mysterious fires often arise at sunset in the hot months.—Strand Magazine.

That there will be a large attendance of crack shots from outside at the gun club tournament tomorrow is now assured. A good sized crowd came in this noon and more are expected tonight and tomorrow morning. A party of at least five crack shots from Duluth will be here on the midnight train tonight.

The following gentlemen arrived on the afternoon train: L. E. Heifner, F. T. Carr, Alex Benson and W. L. Palmer, of Sauk Center, and Jas. B. Doty, R. R. Dregoo and J. P. Chance, of Royalton.

Those who came up this noon went to the grounds this afternoon to witness the shooting of Mr. Akard.

FARM, HOME AND GARDEN

Gardening for Next Year

This may seem early to commence gardening for next year, but it is not. Many a gardener, professional as well as amateur, lets the heat of summer overcome his enthusiasm and energy. Going on the theory that the vegetables have made most of their growth, he says that a few weeds now will not do any harm. As a result they are let to grow during the late summer and fall. They not only eat up the substance of the ground but seed the land with foul weeds for the next season. The writer last year followed up the weed question, not only in the garden, but around the edges, during the entire summer and fall and was careful to get manure so completely rotted that all seeds in it were killed. As a result he had less than one-fourth as many weeds this year as usual.

All ground where early radishes, onions and lettuce were raised should be cleaned thoroughly. It can be planted to kale now. This vegetable, if planted at this time will furnish greens not only late in the fall, but can be dug out from under the snow any time in the winter and used when it is most relished. Our kale patch last year was a frequent lunching ground for the cotton tails, as was proven by the many tracks in the early fall snows.

MUSIC AND DRAMA

The Little Prospector

"The flowers are welcome in May, but 'Chic' Perkins is welcome any day," for she bring along with her an atmosphere of cheerful humor, that invigorates and refreshes. As a theatrical entertainer she has few equals, her stage pictures are well high perfect, and her impersonations of character are so free from the semblance of art, as to destroy the idea of illusion and make them realities. In her new play "The Little Prospector," she has found a fitting medium for the expression of her dramatic powers. "The Little Prospector" is a dramatic jewel of the purest lustre, richly set in a gorgeous environment of scenic effects, and faithfully interpreted by a full company of capable artists who will present it at opera house on July 29.

A Tea Party in Darkness.

There is a tradition to the effect that when domestic lighting by gas was still a novelty Sir Walter Scott introduced it into every room and staircase of the house that he was building at Abbotsford and did so without provision for any unexpected failure. His entering into possession was made the occasion for a house warming on a scale of considerable magnitude, and in the very middle of the festivities all the lights suddenly went out. The guests were left in absolute darkness until such time as mounted messengers could return from Melrose, whither they had been dispatched with instructions to collect all the tallow candles and tin sconces or candlesticks which the village contained.—London Times.

A Fighting Snake.

There is only one snake in the far east—that is, India, Burma, Siam and the Malay peninsula—that will always and at all times attack a man on sight. That is the hamadryad, justly more feared than any other animal that crawls. Fortunately for mankind they are not common, except in limited districts. They are so feared by all that the native shikaris or hunters will go miles out of their way to avoid the locality in which they are known to exist. The hamadryad will stalk a man as a tiger stalks his prey.—Medical Journal.

Fencing With Umbrellas.

A number of English society ladies are at present endeavoring to popularize a new form of sport in London recently imported from Paris, which consists of fencing with umbrellas. The exercise is intended to render them more independent of male protection in the event of an attack by hoodlums. Under the guidance of a well known teacher of fencing, certain of these ladies have already acquired amazing dexterity in the use of this novel weapon.

Big Opening Piano Sale

Commencing Saturday, July 25, 1908

After considering a number of locations in the northern part of the state for our distributing branch we have decided on Brainerd as the most adaptable from any view point, and will be conducted on the Segerstrom method which saves to our customers all middlemen's profits, amounting to from \$100 to \$250 on a piano. We have sold pianos in this state for nearly 20 years and we point with pride to thousands of satisfied customers in all parts of the state as well as in other states which after all are the best endorsements.

We Deal Exclusively in the Better Grade of Pianos

Our prices after the opening sale will be uniform with our Minneapolis and other branches and range from \$300.00 and upwards.

We want to place 50 pianos in prominent homes in Brainerd and neighboring towns so that your neighbors can see and hear our pianos—and actually compare them with pianos sold by other dealers.

To accomplish this quickly forms a basis for our opening sale—which are always sensational—and conducted the Segerstrom way of getting a thing done which is to go ahead and do it—for example:

Pianos made to sell for \$300 sale price \$147

Strangely fascinating are the words that come from the cultivated lips of this most interesting woman whose journey of life has taken her through all renowned psychic schools of Egypt, India and Europe. It seems, indeed, as is her knowledge must come from that mysterious world of which we all would know yet longing, can not know.

She looks as far away into the dim, mysterious future—the great beyond—across the dark chasm which separates the human body from the flitting soul—and that which is to be told. The separated are brought together; foes are made friends; lost property is recovered; the mist is brushed away from business ventures, the hand is so guided that failures are averted; the earth's surface is explored, its treasures laid bare to her mysteriously perceptive mind and while she gives names, dates, facts and figures, her visitor sits dumbfounded at the revelation she makes to him. She is surely a woman of the passing time.

Coming from a race of people who have been clairvoyants for many years her readings of your past and present as well as your future life will amaze you. A 6088 GOOD TEMPLAR.
In the state of Iowa many old soldiers are buying 6088, the great Northern blood purifier, for rheumatism, catarrh and kidney trouble.

Read this extract from a letter written by Mr. Story Keith, Clinton, Iowa, P. C. C. T., Independent Order of Good Templars, to George H. Hazard:
"I have not been as free from rheumatism for a long time as at present, and will tell you what has done it—Matt J. Johnson's 6088, made in St. Paul—perhaps you know of them, if so give them my love for they have a dandy remedy for the ills that we boys are subject to. Everyone in our family is taking it, and all are feeling better. My wife has been so lame she could hardly get up from her chair, and my back at times gave me lots of trouble. Now we are all feeling better, and will keep a bottle on hand at all times."

TO DISCUSS INCREASE OF RATES ON FREIGHT

Shippers Ask Railroad Presidents to Meet Them.

Chicago, July 25.—Shipping interests of the entire country, represented by a committee specially appointed at a general conference of shippers held recently in Chicago, decided at a meeting here to ask presidents of Eastern railroads to meet them to discuss the proposed increase in freight rates. It was the unanimous opinion of the committeemen that before beginning a fight against the increase it would be wise to bring about such a meeting with the railroad officials, if possible, although at the same time asking them to put no advances in effect until after the conferences had been held. W. P. Brown, vice president of the Illinois Central lines, who was in Chicago, is said to have expressed willingness to agree to the plans of the shippers.

The meeting of the committee was presided over by President F. W. Upham of the Illinois Manufacturers' association. The conference decided not to take action until the increase of rates, which goes in effect on Aug. 10 to Texas common points, the judgment of the committeemen being that if no action was taken the committee would be in better position to meet the railroad officials in conference. Although evincing a disposition to go as far as possible to obtain an amicable settlement of the controversy, lines were laid for a fight if necessary. Attorney Levy Mayer told those present that if vigorous action should be decided upon later, there was no doubt but that an injunction could be obtained preventing the roads from putting into effect any advanced rates until after the Interstate commerce commission had had opportunity to pass upon their reasonableness.

Second Double Drowning.

Grand Rapids, Mich., July 25.—The second double drowning here in two days occurred with Joe Briziski, aged twenty-eight, and Stephen Wilzinski, aged twenty-seven, as the victims. The men engaged in a wrestling match, fell into the power canal and were drowned.

GOVERNOR HUGHES WOULD RUN AGAIN

Willing to Accept Renomination If His Party Desires It.

Saranac Inn, N. Y., July 25.—Governor Charles E. Hughes will accept a renomination if the Republican party of this state desires him to again be its candidate. In a statement just made public the governor so declared himself and defined the reasons which he says are responsible for the action he has just taken. The governor's statement follows:
"I have received so many inquiries as to my attitude toward a renomination that I have decided to make the following statement:
"Some time ago I said privately that I did not desire a renomination and that I felt that I could not undertake to serve a second term. This, however, was for reasons entirely personal."

CHARLES EVANS HUGHES.

al. Upon further reflection I am convinced that I have no right to regard these reasons as controlling and that if renominated I ought to accept.
"But it is my desire that the will of the party to which I belong should be freely expressed and that it shall take such action as shall be most closely in accord with public sentiment. I believe that the people thoroughly understand the principles which I have sought to supply in administration and if they so desire, I shall regard it as a privilege and a duty to continue in office for another term."

SLARTLING DEVELOPMENTS

Brought Out by Inquiry Into Conduct of Georgia Prison Board.

Atlanta, Ga., July 25.—Startling developments were brought out at the session of the legislative investigation committee into the conduct of the state prison board and the convict lease system. L. B. Strong, a merchant of Macon, formerly a convict, testified that men were lined up at the prison farm and sold like mules. Sick and infirm men, he stated, shipped in one day from a convict lease camp were shipped out the next day in exchange to another lease. A. L. Rodgers of Atlanta told of the cruel whipping of J. Friseby, a young white boy, for escaping from a camp where the witness says he was held illegally. A sensational charge was made against Judge G. F. Gober of Cobb by the witness, who testified that during a recess of court he visited Friseby in jail, received his confession and pronounced sentence upon him.

TAFT MEETS LEADERS OF NEW YORK CITY

Republican Candidate Makes New Acquaintances.

New York, July 25.—The Republican leaders of the city were fully alive to their opportunity to make the personal acquaintance of their candidate for the presidency and when William H. Taft leaned back in his Pullman seat to begin his journey to Cincinnati he had shaken the hand of practically every district leader in Greater New York, a number of state leaders, and had conversations with politicians of varying degrees of prominence to the number of several hundred.

"It has been a day of acquaintance-making," was Mr. Taft's comment after the impromptu reception was over. "There is no political significance to be attached to any of the interviews I have had. It is a little early for me to get reports of the situation in the state, but from what has been told me by the men I have seen, satisfaction seems to be the prevailing state of mind."

So far as Mr. Taft now intends, this will be his last visit to the city until after election. After the notification ceremonies Tuesday it is his purpose to return to Hot Springs at the earliest possible moment. Although Mr. Taft spent the greater part of the night going over the proof of his notification speech, he was up early and kept a breakfast engagement with his brother, Henry W. Taft, and his wife at the Plaza. He was called on here by Paul Morton and by Judge and Mrs. W. H. Jackson, long time personal friends. When the candidate reached his apartments at the Hotel Manhattan, he found a delegation waiting him, and the callers came throughout the day without cessation.

Big Opening Piano Sale

Commencing Saturday, July 25, 1908

After considering a number of locations in the northern part of the state for our distributing branch we have decided on Brainerd as the most adaptable from any view point, and will be conducted on the Segerstrom method which saves to our customers all middlemen's profits, amounting to from \$100 to \$250 on a piano. We have sold pianos in this state for nearly 20 years and we point with pride to thousands of satisfied customers in all parts of the state as well as in other states which after all are the best endorsements.

We Deal Exclusively in the Better Grade of Pianos

Our prices after the opening sale will be uniform with our Minneapolis and other branches and range from \$300.00 and upwards.

We want to place 50 pianos in prominent homes in Brainerd and neighboring towns so that your neighbors can see and hear our pianos—and actually compare them with pianos sold by other dealers.

To accomplish this quickly forms a basis for our opening sale—which are always sensational—and conducted the Segerstrom way of getting a thing done which is to go ahead and do it—for example:

Pianos made to sell for \$300 sale price \$147

Graduate Palmist of 30 Years Experience

Strangely fascinating are the words that come from the cultivated lips of this most interesting woman whose journey of life has taken her through all renowned psychic schools of Egypt, India and Europe. It seems, indeed, as if her knowledge must come from that mysterious world of which we all would know yet longing, can not know.

She looks as far away into the dim, mysterious future—the great beyond—across the dark chasm which separates the human body from the fitting soul—and that which is to be told. The separated are brought together; foes are made friends; lost property is recovered; the mist is brushed away from business ventures, the hand is so guided that failures are averted; the earth's surface is explored, its treasures laid bare to her mysteriously perceptive mind and while she gives names, dates, facts and figures, her visitor sits dumbfounded at the revelation she makes to him. She is surely a woman of the passing time.

Coming from a race of people who have been clairvoyants for many years her readings of your past and present as well as your future life will amaze you. She is acknowledged by press and public wherever she has been to be the greatest clairvoyant they have ever consulted. Call at once. Success awaits you. Opportunity knocks at your door.
